SUMMARY

Product Manager with experience building AI-driven and Web3-enabled digital products. Skilled in translating business needs into clear product requirements, driving cross-functional execution, and delivering user-centric solutions. Strong technical understanding across AI chatbots, MERN stack, and Web3 integrations, enabling efficient collaboration with engineering teams.

EXPERIENCE

Software Development (AI & Web Platforms)

June 2025 – Present

StarX AI Technology, New Delhi Driving product strategy and execution for AI-powered platforms in collaboration with engineering, design, and AI research teams.

- Defined product requirements and led end-to-end delivery of AI-integrated web features.
- Partnered with AI engineers to integrate LangChain, LangGraph, and Streamlit workflows.
- Owned MVP scoping, roadmap planning, feature prioritization, and sprint cycles.
- Coordinated cross-functional execution via GitHub to ensure timely, quality releases.

Product Management Intern (MERN Ecosystem)

Aug 2024 – Jan 2025

KSBM Info Tech, Noida

Supported product development across LozerWin and Astro Platform by transforming business needs into actionable product specifications.

LozerWin Platform

- Created user stories, acceptance criteria, and contributed to PRDs.
- Collaborated with engineering on API design and data-flow requirements.
- Conducted user research to refine feature priorities.

Astro Platform

- Defined requirements for media uploads, authentication, and dashboard workflows.
- Documented features, test cases, and user flows.
- Participated in backlog grooming, sprint planning, and weekly product syncs.

SKILLS

Product Skills: Roadmapping, PRD Writing, User Stories, Sprint Planning, Backlog Prioritization, User Research, A/B Testing, Product Analytics, Requirement Gathering

Technical Skills: AI Chatbots (LangChain, LangGraph, Streamlit), Web3 Wallets, MetaMask, Next.js, React, Node.js, MongoDB, APIs, Postman, SQL Basics

Soft Skills: Communication, Collaboration, Problem-Solving, Leadership, Analytical Thinking, Documentation, Adaptability

EDUCATION

B.Tech CSE (Artificial Intelligence)

Dr. A.P.J. Abdul Kalam Technical University (2021–2025)

Krishna Engineering College — 7 CGPA

Senior Secondary (PCM)

New Delhi Public School, CBSE — 75% (2019–2020)

TRAINING & CERTIFICATIONS

- MERN Stack Bootcamp — Love Babbar
- Frontend Development — Udemy
- C Programming — InternShala
